**Plus:** side reflex bands for high visibility, footwear with chainsaw cut protection, fireproof seams, ankle protection against incidental impacts, Nitrile rubber toe cap protection, leather pull-on loop

**Performance:**

**Materials and Technologies:**

**Details**

**FIREPROOF GRAIN LEATHER thickness mm 2,0/2,2**

Leather treated with mineral blendings which make it water repellent and resistant to thermal shocks. After the contact with flame there is no sign of post-combustion and post-incandescence: the leather does not suffer any damages.

The footwear protecting against chainsaw cuts are provided with a special protection in the forepart to avoid any serious injury to the lower arts in the event that a moving chainsaw (at high kinetic energy) gets out of hand. It is recommended to select the footwear considering the chainsaw speed.
