

## KASK SUPERPLASMA HD HELMET

An Evolution in Rescue and Rope Access Head Protection.

We are currently transitioning our inventory to a new version of the Superplasma. Please see details below.

The Kask SuperPlasma HD helmets are specifically designed for professional rescue and work-at-height applications to provide the ultimate in head protection. They are lightweight, compact, comfortable, and well-ventilated with 10 air intakes. These intakes are equipped with protective aluminum anti-intrusion grills to deflect debris and water. Soft polyethylene side retractors regulate and secure strap length, with a special ring for fastening the helmet to a harness. Combines perfectly with the CMC Sunbrero!

We are now offering an updated version of the Superplasma HD. Please see details below and refer to the product table and photos. We are still selling through the blue, black, and hi-viz yellow helmets in the ANSI/CSA version. Please check back for further inventory changes.

### Updates:

- New version is certified to ANSI Z89.1 Type I, Class C HT-LT (high temp, low temp rating), previous version was certified to ANSI Z89.1 and CSA Z94.1.
- New Black Aesthetic Details: Headlamp clips, headband, padding, slot caps with debossed lettering, and anti-intrusion mesh are now all black.
- New Polyester XL Chinstrap: The chinstrap is longer with three adjustment points for larger head sizes.
- New KASK Buckle: The chinstrap **buckle is color-coded green** to indicate compliance with EN 12492.
- New Neopor® Cycled® EPS: High density polystyrene foam interior with all-around impact absorption and a reduced carbon footprint.

### Features:

- LATERAL ADJUSTMENT DIVIDER Side adjustment points on chinstrap for secure fit.
- INTEGRATED LAMP CLIPS 4 built-in, nylon lamp attachment points.

- DETACHABLE INNER PADDING Hook-and-loop-enabled padding for easy removal, replacement, & washing.
- 2DRY LINER Moisture-wicking fabric technology for all-day comfort.
- RING TO HOOK Chinstrap loop that securely attaches helmet to a harness.
- UP & DOWN SYSTEM A size adjustment system that enables a comfort fit.
- EARMUFF ADAPTER ATTACHMENT POINTS For adapters to secure earmuffs.
- VENTILATION CHANNELS 10 air intakes that enhance breathability and comfort.
- VISOR ATTACHMENT POINTS For securing KASK eye protection accessories.
- ANTI-INTRUSION MESH Prevents debris from entering ventilation channels.
- Construction: External Shell: ABS; Internal Shell; HD Polystyrene
- Standard: ANSI Z89.1 Type I, Class C
- Universal Size: Adjustable from 51-62 cm (20-24.5 in)
- Optional SuperPlasma Visors and face Shields are available in several styles for added eye and face protection
- Made in Italy

SuperPlasma Hi-Viz version features fluorescent colors and features reflective decals as well as glow-in-the-dark headlamp clips for maximum visibility in dark conditions.
